

Ingestion pipeline -- from uploaded PDF to structured content

Please use CSS style instead of skinparam padding

This syntax is deprecated, you must add <<#DCCDCD>> at the end of the line, after the ';'.

This syntax is deprecated, you must add <<#F2F2F2>> at the end of the line, after the ';'.

This syntax is deprecated, you must add <<#BFBFBF>> at the end of the line, after the ';'.

One live pipeline. PARSER_VERSION selects nothing: any value other than 5 logs "retired" and runs this path (upload_service.py:258). Parser v3 -- the README's headline feature -- and v4 are archived in backend/_legacy/ with zero live importers. Ordinary exceptions here receive **no retry**: max_tries applies only to CancelledError and explicit RetryJob.
